

A close-up, profile view of a woman's face and hand. She has her eyes closed and is wearing heavy gold eye makeup, including shimmering eyeshadow and long, dark eyelashes. Her lips are painted with a glossy, reddish-pink lipstick. She is wearing a silver, ornate headpiece on her forehead. Her hand is raised near her face, with fingers slightly spread. She has gold-painted fingernails and is wearing a large, intricate gold ring on her ring finger. The background is a warm, golden-brown color with a soft, bokeh effect of light circles. The overall mood is elegant and dramatic.

KBL

KBL Premium & 0.3

KBL Premium lamps offer the highest level of technology, quality, and performance that is expected for tanning units across the Megason range.

This premium grade of tanning lamp, combined with the prestige range of Megason tanning equipment, offers the perfect combination, resulting in maximum performance. We strongly recommend installing the KBL lamp to all Megason beds as this is the only lamp that will maximise the benefits of CPI and IntelliSun, resulting in the perfect bronzed all over, natural looking tan.

*Available for the first time in UK
Exclusive to American Leisure*
