

Tower pureEnergy

The pureEnergy tower is ideal for any application. Whether in tanning salons, fitness centres and hotels – the lamellar, chrome ceiling reflector is an eye-catcher in any surrounding. It is optionally available with dynamic LED edgings in four seasons colour changes, with their stimulating and fascinating effect, which fit perfectly into any salon concept.

The versatile exhaust system of the tower also ensures simple extraction even with low ceilings and offers high performance in small spaces. Designed to be a star!
