

Optima

Make no compromises when it comes to performance and fully enjoy the benefits for health and beauty – welcome to the world of OPTIMA . The megaSun OPTIMA makes sure you absorb only the good of the sun: skin moisture is improved, giving your skin a burst of freshness while increasing vitamin D levels.

The new high performance LEDs, the so-called “rubin-collagen boosters”, provide the known effects of collagen, while revitalizing, relaxing and detoxifying the skin. Lines and wrinkles are reduced and contours are noticeably tightened. The p2 Vitamin D lamps also furnish the vital bio-positive effects caused by vitamin D production and gives you the safe feeling of tanning in a way gentle to the skin. Including the perfect tan! The combination of Rubin Collagen Booster and p2 tubes provides unprecedented results, due to improved skin moisturisation and faster melanin production.

Standard

Optima deluxe
